

PRESS RELEASE

Religare Technova Global Solutions and Vietnam Post and Telecommunications Group sign on Bao Viet Securities for the implementation of new Trading and Settlement solutions

Hanoi – 22 September 2009 –Religare Technova Global Solutions (RTGS), Bao Viet Securities (BVSC), and Vietnam Post and Telecommunications Group (VNPT), are delighted to announce the signing of BVSC to implement **RTGS’** Trading and Settlement solutions; TradeAnywhere and NOVA, to assist in the **expansion of BVSC’s** securities business. VNPT will be acting as an advisor to the implementation project.

BVSC, a part of the Bao Viet Group, established the first securities firm in Vietnam in 1999 and since then have been at the forefront of the tremendous growth in the Vietnamese securities industry, and have been instrumental in introducing new initiatives to market.

A Religare Technova company, RTGS is the IT Products Business of a large diversified business group with offices around the world. RTGS has been a market leading provider of solutions to global financial institutions for over 20 years.

Having witnessed the tremendous expansion of the securities industry in Vietnam over the last few years, BVSC found their current system, whilst sufficient for its time, was unable to support and keep up with their rapid rate of expansion and the growing needs of their clients.

“Our strategic partnership with RTGS will bring BVSC to the highest level of competitiveness, allowing us to provide unique services to our clients whilst streamlining **processes and procedures already in place. We’re very excited about using solutions that have been built from a global perspective as it ensures we remain the leader in the Vietnamese securities industry,**” said Mr. Nguyen Quang Vinh, CEO of BVSC.

The key decision factors for BVSC to go with RTGS’ solutions were the in depth functionality contained within the products that have been localised for the Vietnamese market, and the configurability of the solution to ensure the product can cope with the ever increasing number of new initiatives being introduced into the current market.

Each a market leading product, TradeAnywhere and NOVA will provide BVSC with Client and Dealer Trading functionality, Risk Management, Settlement and Clearing processes and Client Support. With the ability to accommodate a diverse range of business requirements, TradeAnywhere and NOVA ensure that BVSC remains competitive and buoyant enough to overcome the challenges faced in a rapidly evolving market.

“We’re delighted that BVSC have joined our growing client base in Vietnam and across the globe. RTGS is fully committed to the Vietnam market, with offices in Hanoi and Ho Chi Minh and we look forward to working with BVSC,” said Colin Camp, Managing Director – Asia and Europe, Religare Technova Global Solutions.

About Religare Technova Global Solutions Limited (RTGS)
